

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Steve Telchuk  
DOCKET NO.: 06-01142.001-R-1  
PARCEL NO.: 14-01-206-013

The parties of record before the Property Tax Appeal Board are Steve Telchuk, the appellant, and the Lake County Board of Review.

The subject property consists of a 16 year-old, two-story style frame dwelling that contains 2,725 square feet of living area. Features of the home include central air-conditioning, one fireplace, a 462 square foot garage and a partial unfinished basement.

The appellant submitted evidence to the Property Tax Appeal Board claiming unequal treatment in the assessment process regarding the subject's improvement assessment as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis of four comparable properties located in the subject's subdivision. The comparables consist of two-story style brick or frame dwellings that range in age from 21 to 25 years and range in size from 2,725 to 2,811 square feet of living area. Features of the comparables include central air-conditioning, one or two fireplaces, garages that contain from 469 to 638 square feet of building area and partial basements, one of which contains 1,069 square feet of finished area. These properties have improvement assessments ranging from \$91,532 to \$100,984 or from \$33.59 to \$35.92 per square foot of living area. The subject has an improvement assessment of \$106,938 or \$39.24 per square foot of living area. Based on this evidence, the appellant requested the subject's total assessment be reduced to \$128,194 and its improvement assessment be reduced to \$92,650 or \$34.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$142,482 was

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Lake County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	35,544
IMPR.:	\$	104,913
TOTAL:	\$	140,457

disclosed. In support of the subject's improvement assessment, the board of review submitted property record cards and a grid analysis of five comparable properties. The comparables consist of two-story style frame dwellings that range in age from 16 to 19 years and range in size from 2,608 to 2,985 square feet of living area. Features of the comparables include central air-conditioning, one fireplace, garages that contain from 441 to 1,230 square feet of building area and full or partial basements, one of which contains 909 square feet of finished area. These properties have improvement assessments ranging from \$99,701 to \$112,099 or from \$37.55 to \$39.32 per square foot of living area. Based on this evidence the board of review requested the subject's total assessment be confirmed.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject property's assessment is warranted. The appellant argued unequal treatment in the assessment process as the basis of the appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the parties submitted nine comparables for its consideration. The comparables were all located in the subject's subdivision and were similar to the subject in most respects. The Board further finds the board of review's comparables 2 and 3 were identical to the subject in age and were similar to it in exterior construction, size and most amenities. These most representative comparables had improvement assessments of \$38.98 and \$39.32 per square foot of living area. The subject's improvement assessment of \$39.24 is bracketed by these two comparables. However, the Board finds the board of review's comparable 2 has a third full bath and comparable 3 has 909 square feet of finished basement, amenities not enjoyed by the subject. Therefore, the Board finds a slight reduction in the subject's improvement assessment is justified.

In conclusion, the Board finds the appellant sufficiently established unequal treatment in the assessment process by clear and convincing evidence and the subject property's assessment as established by the board of review is incorrect and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
